

Dear Parent / Guardian,

In keeping with our commitment to provide students with outstanding Careers, Education, Information and Guidance support when choosing their next step after school, we are using **Unifrog**; **an award-winning, online careers platform. Unifrog brings into one place every undergraduate university course, apprenticeship, and college course in the UK, as well as other opportunities, such as School Leaver Programmes, MOOCs (Massive Online Open Courses) and every college at Oxford and Cambridge.**

This makes it easy for students to compare and choose the best university courses, apprenticeships or further education courses for them. They can also explore exciting opportunities further afield by looking at English taught undergraduate programmes available in Europe and the USA. **Additionally, the platform helps students successfully apply for these opportunities by supporting the writing their personal statement, applications and CVs and guiding them through the process.**

All students in Years 9 to 13 have *24/7 access* to this fantastic ‘one-stop-shop’ resource for personalised and aspirational Careers Education Information and Guidance support and **all** year groups will also be using a range of Unifrog tools within SCRUM careers related sessions and within careers themed events throughout the year.

Students accessing Unifrog for the first time need to *follow sign in instructions provided within an email from Unifrog which has been sent to their school email address (make sure you check ‘junk’ / ‘other’ box)*. They then login using their email address and password and they can do so from any computer, tablet or smartphone. Most students should have already signed in and set up their own password during their SCRUM sessions. **However, if they have forgotten their log in details they can click the forgotten password link on the sign in page to reset using their school email address if requested.**

We would encourage you to use the platform with your child so you can support them through the process of deciding their next step. In order to support this opportunity, we have also set up a parent login so that you can use Unifrog as if you were a student yourself, allowing you to truly support your child. You can sign up here: www.unifrog.org/code. The code you need is :

Studio: parentsstudio

Life Sciences UTC: LLSUparents

For more information, go to www.unifrog.org or contact either your child’s respective Form Teacher, or myself, at school.

Yours faithfully,

Sam Forrest and Andy McCann
