Northern Schools Trust, in accordance with the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017, is required to publish information to demonstrate how large the pay gap is between our male and female employees.

Supporting Statement

Northern Schools Trust is committed to the promotion of equality of opportunity and choice for employees and supports the fair treatment of all staff irrespective of gender through our transparent recruitment processes, pay policy and professional development. Our male and female staff are paid the same pay point for the same job role.

The gender pay gap is a high level, non-adjusted indicator of male and female earnings which is affected by workforce distribution and workforce make-up.

We have a larger majority of female staff occupying lower paid roles therefore the gap between the "average" female hourly rate of pay and the "average" male hourly rate of pay is affected.

Northern Schools Trust supports our staff with a number of family friendly provisions such as part-time working, which our (predominantly) female employees choose to take advantage of.

The overall gender pay gap therefore reflects workforce composition rather than pay inequalities.

I confirm that the above information has been prepared from our payroll data on the snapshot date and fairly represents the Gender Pay Gap Information for Northern Schools Trust
